

Install and configure Bria iPhone Edition to use with Virtual PBX

General Description

Bria is a sip soft phone client that you can download from Apple's App Store to use your VirtualPBX sip account information to receive calls through your extension.

Running Bria

- Once you have installed Bria *iPhone Edition*, make sure you have set up Wi-Fi and cellular data correctly on your device:
 - Set up Wi-Fi: from the main iPhone screen, tap Settings > Wi-Fi. Turn on the Wi-Fi field.
 - Then, choose a Network panel will be populated with access points. Tap to choose an access point and wait for the item to show a checkmark (indicating that you are connected).
 - Set up cellular data (if applicable): from the main iPhone screen, tap Settings > Cellular data and turn on the Cellular Data field.
- If you are using iOS 5 or higher, set up notifications: from the main iPhone screen, tap Settings > Notifications. Tap Bria and set up the following:
 - **Notification center (if desired):** On to display Bria notifications in the iPhone's notification center.
 - Alert Style: Choose how you want to be notified of incoming calls and messages when Bria is in the background. None to receive no notification.
 - Badge App Icon: On to display a number of notifications on the Bria icon.
 - **Sounds:** On to enable the sound preferences you choose on Bria. Off to disable any sound for notifications while Bria is in the background.
 - View in Lock Screen: On to receive notifications when the iPhone is locked.

Download App from the app store

- Search for the VoIP app Bria iPhone Edition in the App Store.
- Install the app.

You Are Now Ready to Use Your Bria iPhone Edition client!

You are now connected and ready to make calls. Dialing from your phone can be accomplished in either of the following ways:

- Enter the **phone number**, then press the **Talk** or **Send** key on your phone
- Press the Talk or Send key first, then enter the phone number

You can test your extension by completing one of the following:

- Dial any of your extension numbers in the system
 - Dial any valid phone number in the U.S. or Canada using the following format:
 - 1 + area code + 7-digit number
 - **7-digit Number** (have your system administrator make sure your default area code is set correctly in order to make 7-digit dialing calls
