

Introducing the VirtualText App for Desktop & Mobile

DO MORE WITH BUSINESS TEXTING

01

Share Numbers

Invite users to help manage messages on your main business number and on individual numbers

02

Use Canned Replies

Save time and get the details right when you store responses to frequently asked questions

03

Automatic Responses

Automatically reply on keywords you program like CONFIRMED or YES

04

Send Picture Messages

Send and receive pictures to and from any mobile number in the Continental United States

05

Create QR Codes

Let clients scan a QR code for information, deals, and more

Make Your Business Better with the VirtualText App from the Experts at VirtualPBX

Keep your business in motion with powerful business texting on the VirtualText App for your VirtualPBX phone numbers.

Great for Solving Business Needs Like:

- Sending appointment reminders
- Managing curbside delivery notifications
- Confirming deliveries with location photo
- Sending campaign or event updates
- Capturing photos for service quotes
- Messaging clients on the go
- Managing memberships or special offers
